WARRANTY AND REMAKE POLICY

Our warranty on fixed and removable prosthetics is as follows:

- Immediate Denture Products: 90 days
- Hybrid Crystal Ultra® Denture Products: 5 years if designed per our parameters.
 - All Crystal Ultra full arch, implant supported hybrid prostheses come with a limited 5-year warranty. Should a Crystal Ultra arch fail within 5 years of placement into the patients mouth, Digital Dental will redo the arch at no charge. This warranty does not include or cover any other use for Crystal Ultra outside of a full arch, implant supported hybrid prosthesis that is designed, milled and assembled by Digital Dental.
 - To meet the minimum design parameters, each:
 - ◆ Arch substructure must be designed with at least 2mm of structure circumferentially around each implant cylinder.
 - ◆ Distal cantilever is not to exceed either the same distance as the AP spread (AP spread = the distance between the most anterior and the most posterior implant on either side of the arch) or 10mm, whichever is shorter.
 - ◆ Crystal Ultra prosthesis must be on transgingival abutments and not fabricated to be placed directly onto the implants.
 - Implant parts are not included and may be an additional charge.

Our remake policy is as follows:

- We will adjust, remake or repair any restoration due to defects in workmanship or material free of charge.
- The original restoration and original model work must be returned with the request for remake or repair.
- There may be additional charges if:
 - The original restoration is not returned.
 - The case has been re-prepped and a new impression sent.
 - The shade or material are different from the original order.
 - We have requested a new impression and you have asked us to proceed without one. *
 - We have requested a framework try-in and you have asked us to proceed without one. *
 - We have requested that the case be re-prepped and you have asked us to adjust the models and to proceed without re-prepping. *
 - There are specifications the case requires that were not requested during original fabrication.
 - A reduction coping has been requested.
 - The failure is due to a non-lab related problem (accident, failure to use nightguard, failure of supportive tooth or tissue structure, poor quality impression, improper preparation, improper seating, improper hygiene).

The following are not covered by our warranty:

- Cases for which we have not received payment toward the original case. You must be a current, active client for a remake to be fabricated at no charge.
- Cases adjusted by other dental laboratories.

**If this applies to your case, your invoice will indicate that the case is not guaranteed under this warranty*

EMERGENCY CASES

We are in business to assist you. When emergencies arise, please call to notify us. We will make arrangements to expedite your work whenever possible. A rush fee may apply.

TURNAROUND TIMES

Please allow full turnaround time for each restoration. Combination cases will require additional time. Turnaround times do not include weekends, holidays, or time in transit (shipping days).
